

Guided Prayers

Dear God, please . . .

- Help me to care that there are babies dying in my community that could be saved. Then help me to care enough to do something about it.
- Put a pregnant woman in my life who needs encouragement. Show me how to carry her burdens so she can focus on carrying her baby.
- Show us as a faith community how to be passionate advocates for strong families, starting with setting the example in our own homes.
- Remind me of how fortunate I am . . . and how you have blessed me not only for my own comfort - but to take my blessings and build up others.
- Help the men in our churches model how strong, compassionate fathers can change a family's direction and bring hope to a community.
- Show me real ideas of how to help, and then the **will** to carry out those ideas. Surely there's a pregnant woman or Mom who needs transportation, a meal, or just someone to talk to.
- Give me eyes to see the woman who's scared and lonely. She may not say those words, but if I stopped long enough to look in her eyes, I would know.

*Thank You Lord,
Amen*
